

## Romanje po poti 33 templjev Kannon bodhisattve

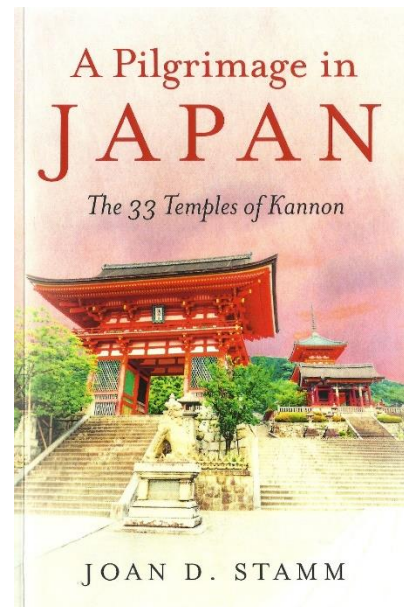

Na Japonskem je mnogo budističnih templjev posvečenih Nyoirin Kannon bodhisattvi, ženskemu in/ali androginemu (s)polu Bude:

Obstaja tudi romarska pot po 33 templjih Kannon, ki jo je prehodila avtorica te knjige.

Sam sicer nisem prehodil vse te poti, sem pa obiskal naslednje njene templje:

1. Shisen-dō, na severnem robu Kjota
2. Kosan-ji v vasici Takao, v zeleni dolini nad Kjotom
3. Sanjusangen-dō, na vzhodu Kjota
4. Kiyomizu-dera, v Higashiyami, Kjoto
5. Ryozen Kwan-on, v osrednjem Kjotu
6. Ishiyama-dera, nad velikim jezerom Biwa
7. Hasa-dera, v Kamakuri

Naslednja serija fotografij prikazuje nekaj prizorov v teh svetiščih →

# 1. Shisen-do, Kijoto: odmaknjen, čudovit tempelj Kannon bodhisattve

2. Kosan-ji, v vasici Takao v zeleni dolini nad Kjotom;  
ta tempelj je ustanovil budistični menih Myōe (1173–1232)

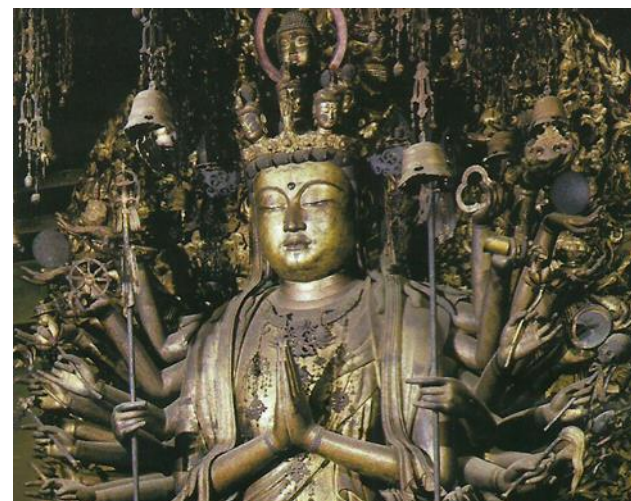

### 3. Sanjusangen-do, glavni tempelj Nyoirin Kannon v Kjotu

#### 4. Kiyomizu-dera, „Tempelj čiste vode“, Kjoto

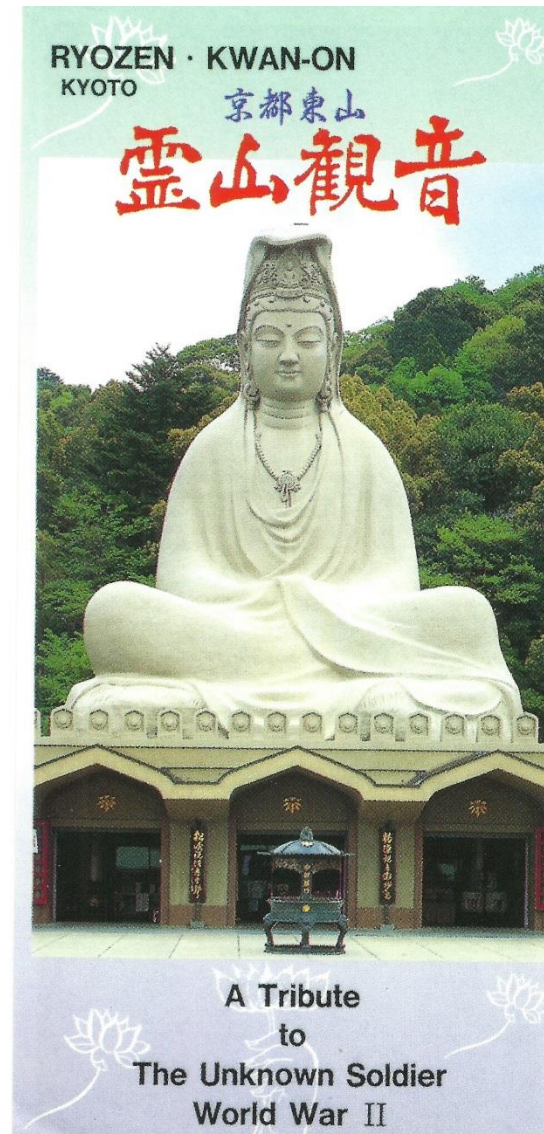

## 5. Ryozen Kwan-on, Higashiyama, Kijoto

### Monument in the Memorial Hall

A monument to the second world war's unknown soldier was erected to the memory of more than forty-eight thousand foreign soldiers who perished on Japanese territory or on territory under Japanese military control. This monument has the following inscription:

**IN MEMORIAM  
THE WORLD'S UNKNOWN SOLDIER  
KILLED IN  
WORLD WAR II**

All honor to him, friend or foe,  
Who fought and died for his country!  
May the tragedy of his supreme  
Sacrifice bring to us, the living,  
Enlightenment and inspiration ;  
Fill us with ever-mounting zeal  
For the all-compelling quest of peace,  
World peace and universal brotherhood.  
Erected by the Ryozen Kwannon Kai, Kyoto.  
June 8, 1958
