

IMAGES OF SLOVENIA

If you say word Slovenia in Europe, everybody will think about new country which has Euro money. So I decided to add to picture the sign of euro and Slovenian €2 coin.

I felt it is important to add the Slovenian flag because most of the people don't know it well. Slovenian flag is very similar to flag of Russia or Slovakia.

I like searching Slovenia on the map because you can see its interesting shape. This is why I added the shape of Slovenia.

In year 2002 Slovenia was very famous. It hosted Chess Olympiad and all best chess masters came to this great event. Chess isn't so typical for Slovenian so I agreed to choose famous Slovenian Lake Bled and the greatest island of Slovenia.

On our coat of arms there is one sign threehead which stands for our highest mountain: "Triglav". So at this time I added the picture of Triglav on the picture.

There is one word in Slovenia which isn't translated to English. It is called "potica" and it is a dessert in Slovenia. Te USA they call potica nut roll. I was determined to include potica on the picture.

I think it was good to add one logo of first Slovenian websearch engine called Matkurja.

Last thing on poster is one of my favorite images of Slovenia. This image is image of Lipizzaners (Lipica white horses) which I think is one of the most beautiful things in Slovenia.

Slovenia has a lot of other symbols but it's hard to choose it all because there is a very huge number of this symbols.
