

SLOVENCİ V BOSNI IN HERCEGOVINI, BOSNA V LJUBLJANI

SLOVENES IN BOSNIA AND HERZEGOVINA, BOSNIA IN LJUBLJANA

The author presents and describes three professional events that took place in Ljubljana on November 15 and 16, 2001. All the three ones were designed by the visit of the Bosnian colleagues.

The first one was a round table dedicated to the long term project research on the Slovenes in Bosnia-Herzegovina. It was organised within the Historian seminar of the Slovenian Academy of Science and Art Scientific Research Center and was participated by nine project researchers of various disciplines from Slovenia and Bosnia-Herzegovina.

The second event was a professional meeting of the two Bosnian guest historians, professors Tomislav Išek and Iljas Hadžibegović, and one ethnologist, Svetlana Bajić, with the fellows of the Institute for Ethnic Studies. The central lecture The Aspects of the contemporary position of the ethno-nations in Bosnia (and Herzegovina) in the context of their continuities and discontinuities was followed by an animated discussion with IES colleagues.

The last meeting was organised by the Institute for modern history and was announced as a friendly professional conversation between the Slovenian and the Bosnian historians. They exchanged their views on the history science situation and problems that appeared after the dissolution of the former Yugoslavia.

It was almost a unique case in the last decade when representatives of all three Bosnian constitutive ethno-nations, even though in the role of scientists, came somewhere outside Bosnia-Herzegovina - together. This is certainly a good sign for their motherland.

Keywords: Slovenes, Bosnia and Herzegovina

Autorica v prispevku predstavlja tri strokovna srečanja, ki so potekala sredi novembra leta 2001, in katerih temeljna karakteristika je bila profesionalna komunikacija med slovenskimi in bosanskohercegovskimi kolegi, zgodovinarjema Hadžibegovićem in Išekom ter etnologinjo Bajićevo, ki so v ta namen obiskali Ljubljano. Osrednja in najvažnejša prireditev je bila tudi za širšo javnost organizirana okrogla miza na temo Slovenci v Bosni in Hercegovini, ki smo jo vsebinsko pripravili sodelavci zadevnega projekta, odvijala se je pa znotraj Historičnega seminarja Znanstvenoraziskovalnega centra Slovenske akademije znanosti in umetnosti. Voditeljica projekta je v prispevku podala nekaj najvažnejših podatkov o sami že dolgoletni raziskavi potem pa je podrobneje predstavila nekatere raziskovalne dosežke devet kolegov, sodelujočih pri tej okrogli mizi.

Drugi dve srečanja sta bili na Inštitutu za narodnostna vprašanja ter na Inštitutu za novejšo zgodovino. Na prvem smo, po uvodnem predavanju profesorja Iška, razpravljali o zgodovinski in sodobni nacionalni problematiki v Bosni in Hercegovini. Na Inštitutu za novejšo zgodovino pa je potekal razgovor o vprašanjih historiografije v novih okoliščinah po razpadu skupne države.

Ključne besede: Slovenci v Bosni in Hercegovini
