Pozdravljen/Pozdravljena!

Bravo!!! Vztrajnost je lepa čednost. Poznaš ta pregovor? Pregovor pravi, da se je potrebno pri vseh stvareh v življenju truditi in vztrajati. Na kratko, ne smeš odnehati. Velikokrat se zgodi, da moraš narediti oz. delati kaj takšnega, kar ti ne gre najbolje od rok, imaš pri tem težave in nenazadnje tega niti ne maraš. S trdom in voljo se da marsikaj izboljšati in tudi pri branju je tako. 🤔

Danes je pred teboj nova bralna urica, vendar je tokrat še nekoliko težja. Pred teboj so bralni kartončki, ki so povezani z že znanimi vsebinami in poznanim besediščem.

Branja se loti **POČASI**. Beri **GLASNO** in **RAZLOČNO**. Nikamor se ti ne mudi. Cilj današnje bralne ure je, da pridobiš na bralni samozavesti, kar pomeni, da se ne ustrašiš, če zagledaš kakšno besedo, ki je takoj ne prepoznaš. Spomni se prvega razreda. Tudi v prvem razredu nisi takoj tekoče in razločno bral/brala, ni tako? Zaupaj vase! Uspelo ti bo!

Bralni kartončki si sledijo po težavnosti. Vsak naslednji bralni kartonček je nekoliko težji in daljši.

Preberi jih večkrat, le tako bo tvoje branje postalo hitrejše in tekoče.

Pripravljen/Pripravljena? Pa začni ...

Kako je šlo? Si imel/imela pri branju veliko težav?

Kartice, ki jih imaš pred seboj, večkrat **GLASNO** in **POČASI** preberi. Še vedno se učiš, zato ne moreš že prvič vse odlično prebrati. Vaja dela mojstra, pravijo. 🤔

Bodi pozoren/pozorna!

Si opazil/opazila, da so na bralnih kartončkih določene besede podčrtane? Kaj meniš, zakaj?

Če dobro pogledaš, ugotoviš, da se vsi opisi oseb na bralnih kartončkih sestavijo enako. Spreminjajo se le podčrtane besede, saj ima vsak drugačno ime, vsi ne marajo enakih stvari in tudi niso enako oblečeni.

DANAŠNJI IZZIV

Izberi si bralni kartonček, ki ti gre najbolje. Najprej ga še enkrat glasno in tekoče preberi. Na podlagi kartončka, ki si ga prebral/prebrala, ustno sestavi svoj opis. Svoj opis predstavi tudi staršem. V pomoč ti je zapisan bralni kartonček.

Za danes je bilo to vse. Imej se lepo in ostani zdrav/zdrava. Se berva ponovno v četrtek.
