Name: _____ **Date:** _____

5 MINUTE CHALLENGE

1. Read and circle the numbers. _Preberi in obkroži števila._   ___/4

Hi, I'm Tina and I'm fifteen years old. I would like you to meet my strange family. Why are we strange? Because we all love collecting things!

First of all there is my father Tom Brown. He is thirty-nine and collects toy trains. It all started when he was a small boy and now he has more than a hundred of them.

Then there is my mum Cathy Brown, she's thirty-seven and she collects teapots. She has around fifty teapots now. She puts them on special shelves in our kitchen and she's always dusting them.

My younger sister is eleven. She collects erasers. She has sixty-two but she doesn't use any of them for school, she says they are special.

And finally what do I collect? I collect sea-shells, each time I go to the beach I always look for pretty or unusual shapes. I have seventy-one shells in my box but I have a few of my prettiest ones on a plate on my desk. My mum says that we will soon need a bigger house if we don't stop collecting. I don't think we will stop as it's so much fun.

Za vsako pravilno obkroženo število, dobiš 0,5T.

2. Write the numbers. _Zapiši števila z besedo._ **_Pazi na zapis!_**   ____/6

5 five   **44** forty-four

12 twelve   **93** ninety-three

80 eighty   ***632** six hundred and thirty-two

Za vsako pravopisno pravilno zapisano število, dobiš 1T. V primeru, da ima zapis eno pravopisno napačno zapisano črko, je celoten zapis vreden 0T.
Če si pri zapisu števil pozabil zapisati vezaj, preostali zapis pa je pravopisno pravilen, je primer vreden 0,5T.

TOČKOVNIK

GREAT WORK! 10T - 8T

DO BETTER! 7,5T-5T

OUCH! STUDY HARDER! 4,5-0
