

# ***Dr. Antrax Ball-Plague***

BY LUKA KONČAN

Dr. Plague is twenty years old and he does not have any hair. He has only got one evil eye and no ears. He communicates with extremely high ultra sound. He comes from the toilet. Whenever there is a nuclear explosion or some other mess, he arises, and kills everybody who is responsible for destroying the planet. He does not have a family. His only mission is to save the Earth from evil.

Between the years zero and one, when the Christianity started to develop, he saw Jesus died. The molecules in his body started to feel that it is their fault. Dr. Plague felt that the people do not respect him anymore and he got extremely mad. He hid for 1600 years and then he started his invasion. Firstly he developed the plague, then he sank the Titanic, later he started the 1<sup>st</sup> World War, some years the 2<sup>nd</sup> one. Next step was his destruction of zeppelin, and later he made an accident in Černobil. In 2004 he sent tsunami on Indonesia. To make a tsunami, he used all his powers and so, he destroyed himself. This was his sacrifice for the world, which will remember him.
