

EXPLOSIVE BIN

† THE LAND OF GNARNIA †

By MAIJA KAMENŠEK

This is Explosive Bin. He is very tall, fat and funny. He is forty-four and totally bald. That's why he always wears a hat. His eyes are red. He lives with his mom in the land of Gnarnia.

The story

Once upon a time there was a cottage in the middle of the forest. In that cottage lived Explosive Bin with his mom. He was driving a red Hot Rod with Nitrous oxide. One morning he was, as usually, driving around the forest, and some mysterious force almost wrecked his car.

He was very angry, so he decided that he will start dealing with explosives. From day to day he was getting madder and madder. So his mom decided that she will put him in the mental institution, where he met Jonny Betta, the famous battlefield hero player. So they went on drugs because they were very upset. But that did not work as well, so they sent them to jail.

Finally they escaped from the jail and they set the bomb on the church. They fired the explosive and the church exploded. And they realised that the bomb business is working great for them so they blew up another church, and another.

All churches were gone so they were going to trees and eventually whole Gnarnia disappeared in to thin air. And that was the end of the Gnarnia.
