

MIZZGON

By PETER MRAZ

His name is Mizgon. He is 10 years old. His eyes are green and his ears are hidden behind his black hair with one silver stream. He has a normal nose. He is from the Wizards Tower in north of England.

His mother and his father died. He is from a hated family. He is visiting the Badgers University for Wizards.

His parents were criminals and they were killed. He wants revenge. Joe was the murderer of his parents. When Mizgon finished school, he found Joe and he started working for him under the false name Brian. His rage rose in him and he started learning killer spells. But then he met Brian's daughter Iza and he fell in love.

He started dating her. But his friend told him that his date killed his sister. As you say the show must go on. He was very sad and angry. He thought and made a choice that he will poison them both. He found out the most poisoned poison recipe.

Use:

1. the dragons horn
2. the badgers hair
3. fresh blood collected at full moon

Then let the poison boil for ten weeks. He waited patiently to poison Brian and his daughter. He made up his mind to poison them on the breezing morning in July. Brian invited him on a picnic. He slipped the poison in the wizard's cola and offered them the cola. They died but there was an eyewitness who saw the murder. She escaped and went to court. They found Mizgon and he went to prison. And he did not live happily ever after. That proves that revenge is not always right. Some times you should accept the fate.
