

Me

My name is Nace and I live in a town called Radovljica. I am thirteen years old. Radovljica is in Slovenia, which is in the middle of four countries (Hungary, Croatia, Italy, Austria).

Where I live

Radovljica is a small town with about 6000 to 7000 people. It is in the north-west part of Slovenia. In Radovljica there are a new sports center, a primary school, two grammar schools, many shops, old buildings (in Radovljica there is also an old part of town). Temperatures are about -10 in winter and +35 in summer. The town is quiet and most people are friendly. One of the interesting places and buildings to see is Apicultural museum.
