Below, you will find a list of Digital Tools created within the NET-ENT project. Through these tools, we would like to take you closer to the project experience. The tools represent the added value to the Manual for Teachers and Handbook for Students. They are connected to individual chapters or they upgrade them.

The Digital Tools include:

- additional details regarding specific content,
- manuals,
- presentations and short videos of the NET-ENT module pilot implementation,
- presentation brochures containing pictorial representation of the project process and the final products created within the pilot implementation of NET-ENT Module.

Digital Tools are also listed in the Manual for Teachers and Handbook for Students.

They are available on the EU website of the project:
