RAY

Final conference

25th September 2019

Location: Nova Gorica, Cankarjeva 8a, MIC

We have the pleasure to invite you to the final conference of the RAY - Regional Alliance of Youth (founded by Erasmus + KA3); - program aimed at developing an innovative model of cooperation between schools and businesses.

The model enables young generations of the modern society and the job market to discover and develop their own potential, and creates quality networking cooperation among young people, tutors at school and mentors in companies.

The main result of the project is a new model of gaining practical experience for students, tutors and mentors. The model emphasizes flexibility, teamwork and project work, as well as a personal and holistic approach to the professional and personal development of students, and gives the opportunity to choose different forms of gaining practical experience in collaboration with other students, tutors and mentors in the company.

It will be held in Nova Gorica on 25th September 2019. Please feel free to forward this invitation to potentially interested colleagues and disseminate it via your newsletters or website.

Please register before 20 September 2019 for the final conference of RAY in Nova Gorica via this link: [RAY final conference](#).
