

Lecture series

NEW DEVELOPMENTS IN STATISTICS

Spring semester 2024/25

The lectures are scheduled on Tuesdays and Wednesdays from 17.15 till 19.45. The lectures will be conducted in lecture **room FDV-17** on Tuesdays and in **room FDV-19** on Wednesdays at FDV (Faculty of Social Sciences, Kardeljeva ploščad 5, Ljubljana). In terms of starting time, the first lecture is an exception, as it will start at 16:30 due to an introduction section. All lectures are in person only.

For more information please contact [Aleš Žiberna](#).

	Date	Presenter	Title
1	18. 2. 2025	Aleš Žiberna	Introduction (starting at 16:30)
1	18. 2. 2025	Andrej Blejec	A glimpse into the history of statistics
2	19. 2. 2025	Andrej Mrvar	Network analysis
3	4. 3. 2025	Michael Bosnjak	Meta-Analysis with R: First steps
4	5. 3. 2025	Mihael Perman	Sufficiency
5	11. 3. 2025	Nada Lavrač	Data mining
6	12. 3. 2025	Katja Lozar Manfreda	Data quality in web surveys
7	18. 3. 2025	Damjan Manevski	Event history analysis I
8	19. 3. 2025	Maja Pohar Perme	Event history analysis II
9	25. 3. 2025	Vladimir Batagelj	Data visualization
10	26. 3. 2025	Lara Lusa	Statistical methods for high-dimensional data
11	1. 4. 2025	Herwig Friedl	Generalized linear models
12	2. 4. 2025	Anuška Ferligoj	Clustering of attribute and/or relational data
13	8. 4. 2025	Blaž Zupan	Dimensionality Reduction and the Joy of Point-Based Visualizations
14	9. 4. 2025	Damijana Kastelec	Statistical modelling of spatial processes
15	15. 4. 2025	Rok Blagus	Goodness-of-fit of regression models
16	16. 4. 2025	Gregor Dolinar	Reliability and life testing
17	22. 4. 2025	Gregor Sočan	Statistical aspects of measurement in social and behavioral sciences
18	23. 4. 2025	Tamas Rudas	Categorical data analysis
19	6. 5. 2025	Irena Ograjenšek	Challenges of conceptualisation, operationalization and measurement in economics and business
20	7. 5. 2025	Kristina Stojmenova	How to write a paper that will be accepted for publishing
22	13. 5. 2025	Simona Korenjak Černe	Introduction to Symbolic Data Analysis
23	14. 5. 2025	Mojca Bavdaž	Challenges of data collection in official statistics
24	20. 5. 2025	Aleš Žiberna	Missing data
25	27. 5. 2025	Gregor Gorjanc	Bayesian approach to statistics
