MultiBeam

Perfect!

We have a penchant for precision. Right down to a mere few hundredths of a millimeter. Because this is what's needed at speeds of 90,000 revolutions per minute. Our people use just the right touch and a wealth of know-how to adjust the bearings in our turbopumps. An unrivaled benefit for you: Fast on-site bearing changes, as only Pfeiffer Vacuum turbopumps can guarantee.

Pfeiffer Vacuum stands for innovative and custom vacuum solutions worldwide. For German engineering art, competent advice and reliable service. Ever since the invention of the turbopump, we've been setting standards in our industry. And this claim to leadership will continue to drive us in the future.

**Looking for the perfect vacuum solution?
