KAMNICA!

This is our place Kamnica.

We feel very good here,
because we have a lot of
forests and greenery.

Our school is in
a good area.

Its filled with
greens, field
and woods.

This is the sign of our school.

THIS IS OUR FIRST DAY IN SCHOOL!

Us having a good time
and a pretty picture.

This is Lily and Bine
our assistants.

They help us
understand all the
mathematical
problems.

Teach us how to
read.

Help us with art
projects.

And they can do
pretty much
everything.

STUDY TIME!

This is how we learn how to write numbers.

In the mornings we say our hellos and plan for the day.

Every Monday we visit the school library, where our librarian reads us a story and later on we ourselves take books that we like to deepen our love for them.

WE ALSO LIKE TO SING AND DANCE.

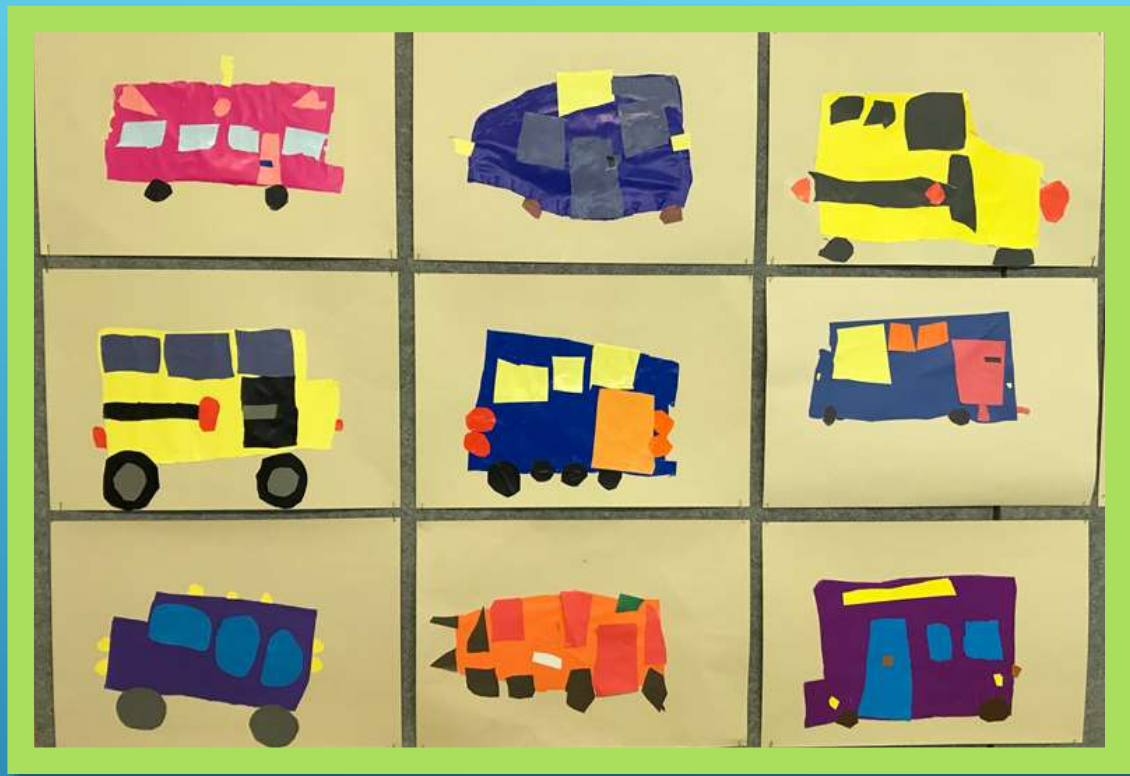

PLAYING GAMES!

We can hardly wait for fridays to come because it's our special art day.

These are our art projects.

We have seasonal art works and since it's autumn we can even use natural materials in our classroom.

AND IN NATURE!

This is our school playground where we have our breaks and where we also get fresh air.

We like to run around and most of all play football.

NATURE DAYS!

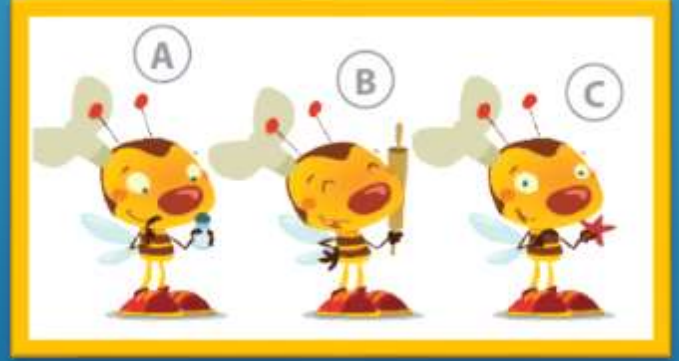

(WE ARE VERY
CURIOUS)

This is where we have our breakfast and lunch, njam!

Don't forget
to brush
afterwards!

This is the mood space, it shows how we are feeling.

On here we can grade ourselves on how we think we did today in class.

Class rules (we almost never break them).

This is where we keep track of all the books we have read to the teacher.

This is where we keep the dates to our birthdays so we never forget someone's special day.

Together with our parents
we had a chestnut picnic.

And the lunch
lady's baked us a
